

Solar Electric Solutions for Any Size

WHAT IS OUR NEW TECHNOLOGY?

SunWize offers superior solar electric solutions for residential, commercial, and industrial customers in the U.S. The SunWize advantage is complete commitment to our customer's satisfaction while providing solutions with economical and environmental benefits.

SunWize has the largest inventory of any solar distributor in North America. We are equipped with two distribution centers (one on each coast) and 18 offices throughout the U.S. and Canada, establishing partnerships with 1,700 dealers nationwide.

What SunWize can do for you is meet your power needs using photovoltaic (PV) technology. Our solar electric system supplies reliable power where and when you need it.

We design our solar products and systems for maximum efficiency and minimum on-site construction time and operation costs.

WHAT SETS US APART?

Customer Satisfaction: As a company, we understand that our principle advantage, the source of our success, has been our ability to connect with our customers and provide exceptional service.

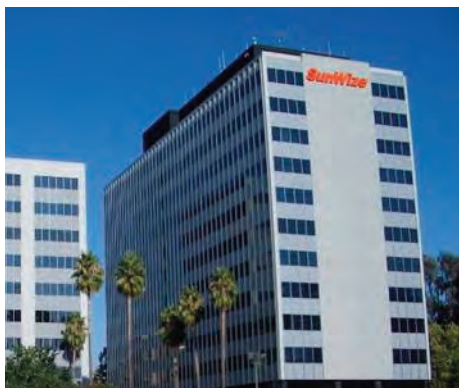

Knowledge and Experience: Our culture attracts the "best of the best" in the solar industry. We have many of the most knowledgeable and experienced people, all committed to working closely with our customers for their success.

Commitment to Innovation: We are committed to using our experience and engineering expertise to continue to provide innovative, leading edge solutions to our customers.

Diversification: We're balanced across the on-grid and off-grid markets, across the industrial, commercial and residential market segments, and across hundreds of customers within each segment.

Industry Leadership: Our solutions, coupled with outstanding customer support, have established SunWize at the forefront of solar electric technology integration.

WILL IT SELL?

Our pre-assembled solar electric systems are complete, fully integrated power supplies designed to meet the requirements of your project. All systems are easy to order, factory assembled, and simple to install and commission.

We design custom solar systems and products to satisfy specific load and environmental requirements.

SunWize, the premier solar electric distributor in the U.S.A., also supplies a large selection of solar modules and balance of system components to its network of solar dealers and installers.
